

Calling all Seaplane Pilots!

We want to hear from you . . .

Join us for a focus group discussion on aquatic invasive species prevention for seaplane pilots in your region. Your feedback will help craft best management practices for seaplane pilots across the United States. These focus group discussions are part of a project supported by the U.S. Fish and Wildlife Service.

Each focus group is a 3-hour virtual meeting for licensed seaplane pilots and seaplane pilot instructors.

If you are interested in participating, sign up for one focus group that best reflects the FAA region where you live.
